PART I
ADMINISTRATION

3. There shall be established under the direction of the Minister an office to be called the Designs Office.

4. There shall be appointed:
(a) a Registrar of Designs who shall exercise the powers and perform the duties assigned to the Registrar by this Act and shall be responsible for its administration; and

(c) such examiners and other officers as the Minister may consider necessary for carrying out this Act.

5. The seal of the Patent Office kept in terms of the Patents Act shall also be the seal of the Designs Office, and impressions thereof made for the purposes of this Act shall be judicially noticed.

6. (1) There shall be kept at the Designs Office for the purposes of this Act a register of designs wherein shall be entered all registered designs with the names and addresses of their proprietors, notifications of assignments and transmissions, and such other matters relating to registered designs as may be prescribed or as the Registrar may think fit.

(2) Subject to this Act, the register of designs shall, at all convenient times, be open to inspection by the public, and certified copies, sealed with the seal of the Patent Office, of any entry in the register shall be given to any person requiring them on payment of the prescribed fee.

(3) The register of designs shall be prima facie evidence of any matters required or authorized by or under this Act to be entered herein.

(4) No notice of any trust, whether expressed, implied or constructive, shall be entered in the register, and the Registrar shall not be affected by any notice.

PART II
REGISTRABLE DESIGNS AND PROCEEDINGS FOR REGISTRATION

7. (1) Subject to the following provisions of this section, a design may, upon application made by the person claiming to be the proprietor, his assignee or legal representative, be registered under this Act in respect of any article or set of articles specified in the application.

(2) Subject to this Act, a design shall not be registered thereunder unless it is new or original and in particular shall not be so registered in respect of any article if it is the same as a design which before the date of the application for registration appears on the register or has been published in Malawi in respect of the same or any other article or differs from such a design only in immaterial details or in features which are variants commonly used in trade.

(3) Regulations made by the Minister under this Act may provide for excluding from registration thereunder designs for such articles, being articles which are primarily literary or artistic in character, as the Minister thinks fit.

7. (1) A design registered under the Protocol shall, subject to the provisions of the Protocol, have effect in Malawi as if it were a design registered under this Act.
(2) In this section, “Protocol” means the Protocol on Patents and Designs within the Framework of the Industrial Property Organisation for English-speaking Africa adopted on 10th December 1982, at Harare in the Republic of Zimbabwe to which Malawi acceded on 3rd January 1984, and any revision thereof to which Malawi has acceded.

8. (1) Subject to this section, the author of a design shall be treated for the purposes of this Act as the proprietor of the design:

Provided that where the design is executed by the author for another person for valuable consideration, that other person shall be treated for the purposes of this Act as the proprietor.

(2) Where a design, or the right to apply a design to any article, becomes vested, whether by assignment, transmission or operation of law, in any person other than the original proprietor, either alone or jointly with the original proprietor, that other person, or, as the case may be, the original proprietor and that other person, shall be treated for the purposes of this Act as the proprietor of the design or as the proprietor of the design in relation to that article.

9. (1) An application for the registration of a design shall be made in the prescribed form and shall be lodged at the Designs Office in the prescribed manner.

(2) For the purpose of deciding whether a design is new or original, the Registrar may make such searches, if any, as he thinks fit.

(3) The Registrar may refuse any application for the registration of a design or may register the design in pursuance of the application subject to such modifications, if any, as he thinks fit.

(4) An application which, owing to any default or neglect on the part of the applicant, has not been completed so as to enable registration to be effected within such time as may be prescribed shall be deemed to be abandoned.

(5) Except as otherwise expressly provided by this Act, a design when registered shall be registered as of the date on which the application for registration was made, or such other date (whether earlier or later than that date) as the Registrar may in any particular case direct:

Provided that no proceedings shall be taken in respect of any infringement of copyright in that design committed before the date on which the certificate of registration thereof under this Act is issued.

(6) An appeal shall lie from any decision of the Registrar under subsection (3).

10. (1) Where the registered proprietor of a design registered in respect of any article makes an application—

(a) for registration in respect of one or more other articles, of the registered design; or
(b) for registration in respect of the same or one or more other articles, of a design consisting of the registered design with modifications or variations not sufficient to alter the character or substantially to affect the identity thereof the application shall not be refused and the registration made on that application shall not be invalidated by reason only of the previous registration or publication of the registered design:

provided that the period of copyright in a design registered by virtue of this section shall not extend beyond the expiration of the original and any extended period of copyright in the original registered design.

(2) Where any person makes an application for the registration of a design in respect of any article and either -

(a) that design has been previously registered by another person in respect of some other article; or

(b) the design to which the application relates consists of a design previously registered by another person in respect of the same or some other article with modifications or variations not sufficient to alter the character or substantially to affect the identity thereof.

Then, if at any time while the application is pending the applicant becomes the registered proprietor of the design previously registered, subsection (1) shall apply as if at the time of making the application the applicant had been the registered proprietor of that design.

11. (1) Where an application for the registration of a design has been made, and it appears to the Registrar that the design is one of a class notified to him by the Minister as relevant for defence purposes, he may give directions for prohibiting or restricting the publication of information with respect to the design, or the communication of such information to any person or class of persons specified in the directions.

(2) Regulations shall be made by the Minister under this Act for securing that the representation or specimen of a design in the case of which directions are given under this section shall not be open to inspection at the Designs Office during the continuance in force of the directions.

(3) Where the Registrar gives any such directions as aforesaid, he shall give notice of the application and of the directions to the Minister, and thereupon the following provisions shall have effect, that is to say:

(a) the Minister shall, upon receipt of such notice, consider whether the publication of the design would be prejudicial to the defence of Malawi and unless a notice under paragraph (c) has previously been given by the Minister to the Registrar, shall consider that question before the expiration of nine months from the date of lodging of the application for registration of the design and at least once in every subsequent year;
(b) for the purpose aforesaid, the Minister may, at any time after the design has been registered or with the consent of the applicant, at any time before the design has been registered, inspect the representation or specimen of the design lodged in pursuance of the application.

(c) if upon consideration of the design at any time it appears to the Minister that the publication of the design would not, or would no longer, be prejudicial to the defence of Malawi, the Minister shall give notice to the Registrar to that effect;

(d) on the receipt of any such notice the Registrar shall revoke the directions any may, subject to such conditions, if any, as he thinks fit, extend the time for doing anything required or authorized to be done by or under this Act in connection with the application or registration, whether or not that time has previously expired.

(4) No person ordinarily resident or domiciled in Malawi shall, while in Malawi, except under the authority of a written permit granted by or on behalf of the Registrar, make or cause to be made any application outside Malawi for the registration of a design of any class prescribed for the purposes of this section unless:

(a) an application for registration of the same design has been made in Malawi not less than six weeks before the application outside Malawi; and

(b) either no directions have been given under subsection (2) in relation to the application in Malawi or all such directions have been revoked.

(5) If any person fails to comply with any direction given under this section or makes or causes to be made an application for the registration of a design in contravention of this section, he shall be guilty of an offence.

(6) Where an offence under this section is committed by a body corporate, every person who at the time of the commission of the offence is a director, general manager, secretary or other similar officer of the body corporate, or is purporting to act in any such capacity, shall be deemed to be guilty of that offence unless he proves that the offence was committed without his consent or connivance and that he exercised all such diligence to prevent the commission of the offence as he ought to have exercised having regard to the nature of his functions in that capacity and to all the circumstances.

12. (1) An application for the registration of a design shall not be refused, and the registration of a design shall not be invalidated, by reason only of -

(a) the disclosure of the design by the proprietor to any other person in such circumstances as would make it contrary to good faith for that other person to use or publish the design.

(b) the disclosure of the design in breach of good faith by any person other than the proprietor of the design;
(c) in the case of a new or original textile design intended for registration, the acceptance of a first and confidential order for goods bearing the design; or

(d) the communication of the design by the proprietor thereof to a Government department or to any person authorized by the Minister to consider the merits of the design, or of anything done in consequence of such a communication.

(2) Where copyright under any written law relating to copyright subsists in an artistic work, and an application is made by, or with the consent of, the owner of that copyright for the registration of a corresponding design, that design shall not be treated for the purposes of this Act as being other than new or original by reason only of any use previously made of the artistic work, unless -

(a) the previous use consisted of or included the sale, letting for hire, or offer for sale or hire of articles to which the design in question (or a design differing from it only as mentioned in section 7 (2)) had been applied industrially, other than articles of a description specified in regulations made under section 7 (3); and

(b) that previous use was made by, or with the consent of, the owner of the copyright in the artistic work.

13.

(1) Any person who qualifies under Article 2 or 3 of the Convention and who has applied for protection for any design in a convention country, or his legal representative or assignee (if such assignee is also so qualified), may make an application for registration of that design in priority to other applicants; and the registration shall have the same date as the date of the application in the convention country or, where more than one such application for protection has been made, the date of the first such application:

Provided that:-

(a) the application for registration is made within six months from the date of the application for protection in the convention country or, where more than one such application for protection has been made, from the date of the first application.

(b) no proceedings shall be taken in respect of any infringement of copyright in that design committed before the date on which the certificate of registration thereof under this Act is issued.

(2) An application for the registration of a design made by virtue of this section shall not be refused, and the registration of a design on such an application shall not be invalidated, by reason only of the registration or publication of the design in Malawi during the period specified in subsection (1) (a) as that within which the application for registration may be made.

(3) Where an applicant referred to in subsection (1) has applied for protection for any design by an application which, in accordance with the law of any convention country, is equivalent to an application duly made in that convention country, he shall be deemed for the purposes of this section to have applied in that convention country.
PART III
EFFECT OF REGISTRATION, ETC

14. (1) The registration of a design under this Act shall give to the registered proprietor the copyright in the registered design, that is to say, the exclusive right in Malawi to make or import for sale or for use for the purposes of any trade or business, or to sell, hire or offer for sale or hire, any article in respect of which the design is registered, being an article to which the registered design or a design not substantially different from the registered design has been applied, and to make anything for enabling any such article to be made as aforesaid:

Right given by registration

(2) Subject to this Act, the registration of a design shall have the same effect against the Government as it has against a subject.

15. (1) Copyright in a registered design shall, subject to this Act, subsist for a period of five years from the date of registration:

Period of copyright

(2) The Registrar shall extend the period of copyright for a second period of five years from the expiration of the original period and for a third period of five years from the expiration of the second period if an application for extension of the period of copyright for the second or third period is made in the prescribed form before the expiration of the original period or the second period, as the case may be, and if the prescribed fee is paid before the expiration of the relevant period or within such further period (not exceeding three months) as may be specified in a request made to the Registrar and accompanied by the prescribed additional fee.

(3) Where in the case of a registered design it is shown:

(a) that the design, at the time when it was registered, was a corresponding design in relation to an artistic work in which copyright subsisted under any written law;

(b) that, by reason of a previous use of that artistic work, the design would not have been registrable under this Act but for section 12(2); and

(c) that the copyright in that work under any written law relating to copyright expired before the date of expiry of the copyright in the design.

The copyright in the design shall, notwithstanding anything in this section, be deemed to have expired at the same time as the copyright in the artistic work, and shall not be renewable after that time.

16. (1) In proceedings for the infringement of copyright in a registered design damages shall not be awarded against a defendant who proves that at the date of the infringement he was not aware, and had no reasonable ground for supposing, that the design was registered; and a person shall not be deemed to have been aware or to have had reasonable ground for supposing as aforesaid by reason only of the making of an article with the word “registered” or any abbreviation thereof, or any word or words expressing or implying that the design applied to the article has been registered, unless the number of the design accompanied the word or words or the abbreviation in question.

Exemption of innocent infringer from liability for damages
(2) Nothing in this section shall affect the power of the Court to grant an injunction in any proceedings for infringement of copyright in a registered design.

17. (1) At any time after design has been registered any person interested may apply to the Registrar for the grant of a compulsory licence in respect of the design on the ground that the design is not applied in Malawi by any industrial process or means to the article in respect of which it is registered to such an extent as is reasonable in the circumstances of the case; and the Registrar may make such order on the application as he thinks fit

(2) An order for the grant of a licence shall, without prejudice to any other method of enforcement, have effect as if it were a deed executed by the registered proprietor and all other necessary parties, granting a licence in accordance with the order.

(3) No order shall be made under this section which would be at variance with any of the provisions of the Convention.

(4) An appeal shall lie from any order of the Registrar under this section.

PART IV

USE OF REGISTERED DESIGNS FOR SERVICES OF GOVERNMENT, ETC

18. (1) Notwithstanding anything in this Act, any Government department or any person authorized in writing by the Minister may use any registered design for the services of the Government in accordance with this section.

(2) If and so far as the design has before the date of registration thereof been duly recorded by or applied by or on behalf of a Government department otherwise than in consequence of the communication thereof directly or indirectly by the registered proprietor or any person from whom he derives title, any use of the design by virtue of this section may be made free of any royalty or other payment to the registered proprietor.

(3) If and so far as the design has not been so recorded or applied as aforesaid, any use of the design made by virtue of this section at any time after the date of registration thereof, or in consequence of any such communication as aforesaid, shall be made upon such terms as may be agreed upon, either before or after the use, between the Minister and the registered proprietor with the approval of the Minister of Finance, or as may in default of agreement be determined by the Tribunal on a reference under section 21(1).

(4) The authority of the Minister in respect of a design may be given under this section either before or after the design is registered and either before or after the acts in respect of which the authority is given are done, and may be given to any person, whether or not he is authorized directly or indirectly by the registered proprietor to use the design.
(5) Where any use of a design is made by a Government department or any person authorized by the Minister under this section, then, unless it appears to the Minister that it would be contrary to the public interest so to do, the Minister shall notify the registered proprietor as soon as practicable after the use is begun, and furnish him with such information as to the extent of the use as he may from time to time require.

(6) For the purposes of this Part any use of a design for the supply to the government of any country outside Malawi in pursuance of any agreement or arrangement between the Government of Malawi and the government of that country, of articles required for the defence of that country shall be deemed to be a use of the design for the services of the Government, and the power of a Government department or a person authorized by the Minister under this section to use a design shall include power:

(a) to sell such articles to the government of any country in pursuance of any such agreement or arrangement as aforesaid; and

(b) to sell to any person any articles made in the exercise of the powers conferred by this section which are no longer required for the purpose for which they were made.

(7) The purchaser of any articles sold in the exercise of powers conferred by this section, and any person claiming through him, shall have power to deal with them in the same manner as if the rights in the registered design were held on behalf of the Government.

19. (1) In this section “exclusive licence” means a licence from a registered proprietor which confers on the licensee or on the licensee and person authorized by him, to the exclusion of all other persons (including the registered proprietor), any right in respect of the registered design

(2) In relation to any use of a registered design, or a design in respect of which an application for registration is pending, made for the services of the Government:

(a) by a Government department or a person authorized by the Minister under section 18, or

(b) by the registered proprietor or applicant for registration to the order of a Government department.

The provisions of any licence, assignment or agreement made, whether before or after the commencement of this Act, between the registered proprietor or applicant for registration or any person who derives title from him or from whom he derives title and any person other than a Government department shall be of no effect so far as those provisions restrict or regulate the use of the design, or any model, document or information relating thereto, or provide for the making of payments in respect of any such use, or calculated by reference thereto; and the reproduction or publication of any model or document in connection with the said use shall not be deemed to be an infringement of any copyright subsisting in the model or document.
(3) Where an exclusive licence granted otherwise than for royalties or other benefits determined by reference to the use of the design is in force under the registered design then:

(a) in relation to any use of the design which, but for this section and section 18, would constitute an infringement of the rights of the licensee, section 18(3) shall have effect as if for the reference to the registered proprietor there were substituted a reference to the licensee; and

(b) in relation to any use of the design by the licensee by virtue of an authority given under section 18, that section shall have effect as if subsection (3) thereof were omitted.

(4) Subject to subsection (3), where the registered design or the right to apply for or obtain registration of the design has been assigned to the registered proprietor in consideration of royalties or other benefits determined by reference to the use of the design, then:

(a) in relation to any use of the design by virtue of section 18, subsection (3) of that section shall have effect as if the reference to the registered proprietor included a reference to the assignor, and any sum payable by virtue of that subsection shall be divided between the registered proprietor and the assignor in such proportion as may be agreed upon between them or as may in default of agreement be determined by the Tribunal or a reference under section 21; and

(b) in relation to any use of the design made for the services of the Government by the registered proprietor to the order of a Government department, section 18(3) shall have effect as if that use were made by virtue of an authority given under that section.

(5) Where, under section 18(3), payments are required to be made by a Government department to a registered proprietor in respect of any use of a design, any person being the holder of an exclusive licence under the registered design (not being such a licence as is mentioned in subsection (3) of this section) authorizing him to make that use of the design shall be entitled to recover from the registered proprietor such part, if any, of those payments as may be agreed upon between that person and the registered proprietor, or as may in default of agreement be determined by the Tribunal under section 21 to be just having regard to any expenditure incurred by that person:

(a) in developing the said design; or

(b) in making payments to the registered proprietor, other than royalties or other payments determined by reference to the use of the design, in consideration of the licence;

and if, at any time before the amount of any such payment has been agreed upon between the Government department and the registered proprietor that person gives notice in writing of his interest to the department, any agreement as to the amount of that payment shall be of no effect unless it is made with his consent.
20. (1) In this section “period of emergency” means any period beginning on such date as may be declared by the Minister by notice published in the Gazette to be the commencement, and ending on such date as may be so declared to be the termination, of a period of emergency.

(2) During any period of emergency the powers exercisable in relation to a design by a Government department or a person authorized by the Minister under section 18, shall include power to use the design for any purpose which appears to the Minister necessary or expedient:

(a) for the efficient prosecution of any war in which Malawi may be engaged;
(b) for the maintenance of supplies and services essential to the life of the community;
(c) for securing a sufficiency of supplies and services essential to the well-being of the community;
(d) for promoting the productivity of industry, commerce and agriculture;
(e) for fostering and directing exports and reducing imports or imports of any classes, from all or any countries and for redressing the balance of trade;
(f) generally for ensuring that the whole resources of the community are available for use, and are used, in a manner best calculated to serve the interests of the community; or
(g) for assisting the relief of suffering and the restoration and distribution of essential supplies and services in any part of the Commonwealth or any foreign countries that are in grave distress as the result of war;

and any reference in this Part to the services of the Government shall be construed as including a reference to the purposes aforesaid.

21. (1) Any dispute as to:-

(a) the exercise by a Government department or a person authorized by the Minister of the powers conferred by section 18;
(b) the terms for the use of a design for the services of the Government thereunder; or
(c) the right of any person to receive any part of a payment made in pursuance of section 18(3),

may be referred to the Tribunal by any party to the dispute in such manner as may be prescribed.
(2) In any proceedings under this section to which a Government department is a party, the Government department may:-

(a) if the registered proprietor is a party to the proceedings, apply for cancellation of the registration of the design upon any ground which the deletion of a design may be ordered by the Tribunal under section 24;

(b) in any case, put in issue the validity of the registration of the design without applying for its cancellation.

(3) If in such proceedings as aforesaid any question arises whether a design has been recorded or applied as mentioned in section 18 and the disclosure of any document recording the design, or of any evidence of the application thereof, would, in the opinion of the Government department, be prejudicial to the public interest, the disclosure may be made confidentially to counsel appearing for the other party or to an independent expert agreed upon by the parties.

(4) In determining under this section any dispute between a Government department and any person as to terms for the use of a design for the services of the Government, the Tribunal shall have regard to any benefit or compensation which that person or any person from whom he derives title may have received, or may be entitled to receive, directly or indirectly from any Government department in respect of the design in question.

PART V
ASSIGNMENTS, CORRECTIONS AND CANCELLATION

22. (5) Except for the purposes of an application to rectify the register under this Act, a document in respect of which no entry has been made in the register under subsection (3) shall not be admitted in any proceedings as evidence of the title of any person to a registered design or share of or interest in a registered design unless the Tribunal or Court concerned otherwise directs.

(2) A copy of any entry in the register or of any representation, specimen or document kept in the Designs Office or an extract from the register or any such document, purporting to be certified by the Registrar and to be sealed with the seal of the Patent Office, shall be admitted in evidence without further proof and without production of the original.

27. (1) Subject to this section and to any regulation made by the Minister in pursuance of section 11(3), the representation or specimen of a design registered under this Act shall be open to inspection at the Designs Office on and after the day on which the certificate of registration is issued.

(2) In the case of a design registered in respect of an article of any class prescribed for the purposes of this subsection, no representation or specimen of the design lodged in pursuance of the application shall, until the expiration of such period after the day on which the certificate of registration is issued as may be prescribed in relation to articles of that class, be open to inspection at the Designs Office except by the registered proprietor, a person authorized in writing by the registered proprietor, or a person authorized by the Registrar, the Tribunal or by a court:

Provided that where the Registrar proposes to refuse an application for the registration of any other design on the ground that it is the same as the first-mentioned design or differs from that design only in immaterial details or in features which are variants commonly used in the trade, the applicant shall be entitled to inspect the representation or specimen of the first-mentioned design lodged in pursuance of the application for registration of that design.
(3) In the case of a design registered in respect of an article of any class prescribed for the purposes of subsection (2), the representation or specimen of the design shall not, during the period prescribed as aforesaid, be inspected by any person by virtue of this section except in the presence of the Registrar or of an officer acting under him; and except in the case of an inspection authorized by the proviso to that subsection, the person making the inspection shall not be entitled to take a copy of the representation of specimen of the design or any part thereof.

By Registrar

41. Remedy for groundless threats of infringement proceedings

(4) Unless otherwise agreed between the parties, any costs awarded in terms of section 35(4) shall be taxed by the Registrar of the Tribunal in accordance with rules made under this Part which taxation shall be subject to appeal to Tribunal, and any such costs may be recovered by action in a court of competent jurisdiction.
